

# Product & Services Guide

Your Trusted Farming Partner

# Australian-owned and operated

**At Miriwinni Lime and Gypsum, we're thrilled to be a 100% Australian-owned and operated company. We take great pride in extracting, processing, transporting, and spreading agricultural and industrial minerals throughout Queensland and beyond.**

Our commitment to ongoing regional development, local employment, and sourcing goods and services is unwavering. We're proud to have long-standing resources and operations on the Atherton Tablelands, Winton, and Northern Australia.

Our products are regularly used to support sustainable agriculture and provide positive

environmental outcomes. We're dedicated to improving our operations while retaining our individual characteristics of agility and consistency that have made us a proven supplier of choice for over 40 years. When you reach out to us, you'll speak directly with our friendly team who will make enquiries and orders easy and fast. We look forward to hearing from you.

► NATURAL RESOURCES TO INCREASE YIELD

# Our Products

We produce a variety of naturally mined minerals along with a select range of quality sourced inputs.

These include:	Typical Analysis
Agricultural Lime	40% Ca
Fine Grit	40% Ca- 1mm Calcium Grit
Dolomite	20% Ca 10% Mg
Natural Gypsum	18% Ca 14% S
Natural Rock Phosphate	19% Ca 9% P
Calcium Silicate	35% Ca 13% Silicon
Lime/Dolomite Blends	(Blend 3) 32% Ca 3% Mg (Blend 5) 29% Ca 5% Mg
Magnesium Carbonate	26.27% Mg
Lime/Mag Carb Blends	(Mag Carb 3) 35.4% Ca 3% Mg (Mag Carb 5) 32.3% Ca 5% Mg (Mag Carb 8) 27.5% Ca 8% Mg
Magnesium Oxide	54.8% Mg
Lime/Mag Ox Blends	(Mag Ox 3) 36% Ca 3% Mg (Mag Ox 5) 34% Ca 5% Mg (Mag Ox 9) 32% Ca 9% Mg
Decorative Stone	White Marble Stone Fruit Salad Stone Salt & Pepper Stone

Our decorative stone is produced from our Chillagoe operation. This area is renowned for its exquisite marble and decorative stone formations.

The stone is supplied in 10mm or 20mm sizes and can be provided as a crushed product or as a washed and tumbled product making the edges of each stone rounded.
